## Benefits of udderCARE Spray:

- Easy Solution
- Heals Fast
- Reduce Odor
- Reduce Pain
- Satisfaction Guaranteed!

## Best Applications for optimal results:

- **Spray at each milking** directly to affected area - typical treatment time is less than two weeks.
- **Do not wash the affected area.**
  - \*\*After all major cases have been healed, usage continues to be an average of 1 bottle for every 125 cows per month.
  - \*\*A very large 2 year old case of rot took less than 2 days to stop odor, 2 weeks to heal.
